We go to great lengths to insure that the data center environment is respected and protected.

We understand that data centers must operate twenty-four hours a day, seven days a week.  
We understand that data centers cannot shut down.

We understand that data centers cannot in any way be compromised. We understand five nines...

Our personnel are highly trained and have many years' experience cleaning in the data center environment.

TekClean provide on-site tests, evaluations, and consultations. We welcome the opportunity to discuss how we can help you with your data center micro cleaning needs.
